

Christmas Star – Cece Winans

On a magic night in Bethlehem,
On the birthday of a boy
The angels sang and the heavens rang
With tidings of great joy

And on that night, an ancient spark
had journeyed from afar
The greatest gift that God could give
Became the Christmas star

Chorus:

**There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way**

For the wandering flock, the shepherds watched
It's still the same today
Returning every child of God
Who's ever gone astray

Chorus

There's a promise in the prophecy
That wise men will behold
A song for all eternity
And so the story's told

Chorus x 2

The Christmas star that lights the way.

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way

There's a light that shines on everyone
Burning brighter every day
For the souls who search for peace on earth
It's the Christmas star that lights the way
